

# 6223 Job Title: Capital Markets Origination CB Italy 1

Vacancy Type: Internship Curricular

Job Area: Banking, Trading & Investments Products

Location: Milano

## Area description

Corporate & Investment Banking (CIB) is a cross-country division of our Group which services the financial needs of small-medium enterprises, large corporates, multinationals, financial institutions, investors and commercial banking customers through corporate and transaction banking as well as structured finance, capital markets and investment products.

CIB provides access to markets in Western, Eastern and Central Europe and accompanies customers internationally.

## Function description

Markets successfully encompasses the full range of financial and investment products and services for CIB Clients, Commercial Banking clients as well as our and third-party retail clients – from risk management solutions and advisory to investment products and award-winning Research.

Staffed by over 1,250 professionals, Markets successfully meets the changing needs of our institutional and corporate clients through origination, structuring, distribution and trading. It also acts as a market maker for financial products.
