

Job Title: Internship in buddybank - Web & App Designer

- Vacancy Type: Internship Curricular
- Job Area: Research & Innovation
- Location: Milano

Area description

Buddybank is the brand-new UniCredit's mobile-only banking model dedicated to retail customers in Italy, paving the way for a disruptive banking experience.

Offering a natively iOS integrated mobile app and a 24/7 chat-based concierge to take care of customer banking and lifestyle needs, buddybank is aiming to achieve user experience excellence and build a strong network of partnership for a 360° service available in each client's pocket.

Web & App Designer passionate about new technologies, with a strong result orientation. The person will be part of a young and dynamic team and will mainly deal with the creation of sketch, wireframe, prototype and visual mock-ups for iOS applications. The person must be a trained designer and developer on creating interactive prototypes.

Required skills:

- Proven experience on the topic (provide examples);
- a sketch design tool (among Sketchapp, Adobe Illustrator, Adobe XD, Photoshop);
- UIView Transition (both by code and storyboard);
- HTML 5;
- Fluent English language written/spoken.

Other preferential skills/features:

- Accomplishment of Standard or Master Class at the Apple Developer Academy
- Strong relational skills and ability to work in a multidisciplinary, challenging and constantly evolving environment;
- Entrepreneurial attitude – a previous experience in creating (or joining) a small tech startup, or taking part in university/company business challenges/contests is a plus;
- Italian language written/spoken.

What we offer to you

You will be challenged with a unique experience in a team-oriented, dynamic and international environment where you will have the chance to get a deep knowledge of a brand new bank mobile app development program.

- Entry date: 04/06/2018
- Contract Type: Internship Curricular
- 6 months FULL TIME
- Reimbursement: 600 euros gross per month
