Organisation Expertise	As the Department of Labour Economics and Industrial Relations, Management&Work Psychology in Uludağ University, we aim at developing the network of Women Scientist and Women Workers in Europe and promote closer coordination and collaboration between industries and universities. We offer our expertise to participate as a PARTNER in the projects concerning GENDER and RESEARCH ISSUES such as GENDER INEQUALITIES/BIAS/STEREOTYPES/IDENTITY. We have considerable expertise in Social Politics and we are interested in Gender at Work, Gender Equality

	<p>and Discrimination. In addition, we are experimenting with social politics of inter-disciplinary didactic activities in the field of Social Sciences to foster change and increase the participation of women at the highest level. We can work towards a solution in the projects to help solving one of the vital global concerns: Gender Inequalities. This area aims to develop new theories and practices on how organizations are able to change gender-based institutional rules (the distribution of power, privileges, and rights), values (norms and attitudes), and practices. The network is also supposed to change the political, cultural and traditional systems of the organizations to challenge the social norms and gender inequality. By analysing an organization's culture, policies and leadership, and by encouraging practical changes that have a direct, positive impact both on the organization and the communities it serves and applying the methodology of an ethnographic approach at the organizational level undertake empirical research into studying the growing help via our University in Turkey, and compare the Turkish cases with the developments worldwide.</p>
