## FP7 Programme SECURITY Theme

Description of the organisation (max 1.000 characters):

Global Security Intelligence Limited (GSI) was founded in 2005, responding to a need both in the public and private sectors for a more holistic approach to security problems. GSI's vision of holistic security solutions encompasses the full range of issues that can impact whether and how security technologies will be effectively woven into the fabric of an organization's infrastructure, its processes, and ultimately, its culture. GSI has the capability to provide a comprehensive analysis of the various legal and ethical (particularly privacy-related) issues surrounding the deployment of security and surveillance systems, and to support overall security systems development and deployment projects in operational, policy, process, and commercialisation areas.
