Type of the Organisation	Non Governmental Organisation
Organisation Expertise	Stratim is a non-profit organization focusing on energy infrastructure security issues. Stratim is the only Turkish NGO that specializes on energy infrastructure security as well as security research. Given the exponential increase in energy infrastructure in Turkey and the region Stratim aims at providing an informed debate about energy infrastructure security

issues as well as related energy security matters. The operation of the Baku-Tbilisi-Ceyhan (BTC) as well as the Baku-Tbilisi-Erzurum (BTE) pipelines, the signing of the Nabucco project as well as the future building of the Samsun-Ceyhan oil pipeline provides abundant strategic assets that need to be secured. Stratim organizes national, regional and international workshops and conferences with the aim of raising energy security issues with a particular emphasis on threats against critical infrastructure. Stratim treats the issue of energy security with an emphasis on integrating Turkey fully within the European energy architecture. For this purpose Turkey lobbies in favor of Turkey beginning to negotiate the energy chapter within its accession negotiation process. Stratim is also cognizant of the strategic value of providing EU countries with alternative energy resources and thus supports research and cooperation schemes that aim to raise further awareness of important issues be they on the energy supply side, threats against critical infrastructure or other relevant political issues.

Stratim is also concerned with facilitating strategic communication for Turkey, particularly in relation to facilitating a better understanding of Turkey within the EU. Hence, Stratim engages and organizes convening activities, study tours as well as fundraising events for other NGOs in the field. Stratim treats European energy security as a key component of Turkish strategic communication.

	<p>Stratim works with the Turkish Prime Ministry, the Turkish Ministry of Energy and Natural Resources as well as with the German Marshall Fund of the United States (GMF). One of Stratim's Turkish partners is the Foundation for Political, Economic and Societal Research (SETA). Stratim is organizing the Istanbul Forum, an annual international event that brings together policymakers, analysts, think-tankers and industry executives in order to foster better understanding of issues of regional concern.</p> <p><i>(max. 1500 characters)</i></p>
