

**EU FRAMEWORK PROGRAMME 7th  
PEOPLE PROGRAMME**

**PARTNER SEARCH FORM**

Date:	15 <sup>th</sup> October 2009
Area:	
Call:	FP7-PEOPLE-2010-ITN
Deadline:	22 December 2009 at 17:00:00, Brussels local time

INFORMATION OF ORGANISATION	
Name of organisation	MIGRES Foundation
Project Team	---
Organization type	<input checked="" type="checkbox"/> Research <input checked="" type="checkbox"/> Education <input type="checkbox"/> Industry <input type="checkbox"/> Technology Transfer <input type="checkbox"/> SME <input type="checkbox"/> Other (please provide details)
Organization Size (employees)	<input type="checkbox"/> < 10 <input checked="" type="checkbox"/> 10-49 <input type="checkbox"/> 50-99 <input type="checkbox"/> 100-199 <input type="checkbox"/> 200-249 <input type="checkbox"/> >250
Short description of organization (main research activities)	<p>The main Migres Foundation's mission is:</p> <ul style="list-style-type: none"> <li>- To establish a meeting forum between experts, institutions and associations that share the desire to promote the study, conservation and spreading of nature.</li> <li>- To strengthen activities with socio-economic relevance which focus on sustained use of natural resources.</li> </ul> <p>The Migres Foundation wants to combine efforts between scientific communities, companies, citizens and public and private organizations, directed to reinforce intended mechanisms towards an efficient sustainable development by means of:</p> <ul style="list-style-type: none"> <li>- The channelling of efforts and optimization of resources.</li> <li>- The mediation with social agents, environmental agents and citizens.</li> <li>- The support and impetus to investigation, conservation, spreading and education projects.</li> </ul> <p>With the aim of ensuring and guarantying scientific quality, in design as well as in evaluation and project and program proposal, the Foundation has a committee specialized in migratory phenomenon characterised by its scientific excellence and international renown:</p> <ul style="list-style-type: none"> <li>- Dr. Keith L. Bildstein. Scientific Director of Hawk Mountain Sanctuary – Pennsylvania.</li> <li>- Professor Ian Newton OBE FRS. Centre for Ecology and Hydrology, Monks Wood – United Kingdom.</li> <li>- Dr. Lucas Jenni. Scientific Director of Swiss Ornithological Institute.</li> <li>- Dr. Miguel Ferrer. Doñana Biological Station. CSIC – Spain.</li> </ul> <p>The main research activities carried out by the Foundation are:</p> <ul style="list-style-type: none"> <li>- The application of new technologies in the study of bird migration. By this line of action, it is intended to determine the efficiency and applicability of remote monitoring methods in the detection and identification of the most representative species, as well as the obtaining of abundance rates and population estimates of that species.</li> <li>- Migres Programme: Its main aim is to obtain, in a permanent and continuous way, objective and comparable information</li> </ul>

	<p>about the colonies evolution of different groups of animals on their way through the Strait of Gibraltar.</p> <ul style="list-style-type: none"> <li>- Captivity breeding centre for the Iberian Imperial Eagle.</li> <li>- Monitoring of reproduction of Montagu's harrier (<i>Circus pygargus</i>), Stone Curlew (<i>Burhinus oedicephalus</i>), Great Bustard (<i>Otis tarda</i>) and Little Bustard (<i>Tetrax tetrax</i>) in Janda's wind farms.</li> <li>- The verification of effectiveness and execution of corrective measures considered in the Environmental Impact Study, and the design of new corrective measures in case of unexpected alterations.</li> <li>- Fitting radar's methodology for monitoring of sea birds.</li> <li>- Study and monitoring of vulture (<i>Gyps fulvus</i>) in the Strait of Gibraltar.</li> <li>- SADCOM Project (Autonomous and Distributed Systems for Conservation of Environment).</li> <li>- Development of bird impacts detection system with electric power lines.</li> <li>- Development of an anti-electrocution birds system in electric power lines.</li> <li>- Investigation of advanced techniques to reduce birds mortality colliding with wind turbines.</li> </ul>
Project Proposal Scope and Objectives	---
Expertise offered	Investigations related to biodiversity conservation, the effect of climate change on biodiversity, and natural resource management.
Target partners' organisation type	<input checked="" type="checkbox"/> <input type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> Research    Education    Industry    Technology Transfer    SME <input type="checkbox"/> Other (please provide details)
Target partners' expertise sought	---
Target countries	---
Other partners in the consortium already identified (with their countries)	---
International projects already undertaken	EUROMIGRANS. Western Palearctic Bird Migratory Network. www.euromigrans.org
